

Ameren Illinois is helping local businesses and organizations in the energy efficiency field identify local and diverse candidates that would benefit from participating in a summer internship program.

ENERGY EFFICIENCY PROGRAM

AMEREN ILLINOIS ENERGY EFFICIENCY INTERNSHIPS

Internships are being offered throughout central and southern Illinois, specifically within the Ameren Illinois service territory.

Ameren Illinois has identified businesses and organizations like yours that support the Ameren Illinois Energy Efficiency Program to participate in this opportunity. Through these partnerships with local businesses and community-based organizations, interns will be able to:

Learn about employment opportunities in the energy efficiency field.

Receive hands-on training and mentorship from professionals in the industry.

Develop skills relevant to obtaining a full-time position in the energy efficiency field.

ABOUT THE SUMMER INTERNSHIP PROGRAM:

- » The Program anticipates providing 10 – 15 internships.
- » Internships are offered for 10 – 12 weeks, during May through August.
- » Interns will work full-time during the internship period, and no less than 30 hours per week.
- » Internships are paid positions, pay varies with experience and the responsibilities of the position.
- » Available internships will be granted as available, to candidates who demonstrate a strong work ethic, commitment to the position and a willingness to learn about working in the energy efficiency field.
