What you should know before beginning:

- Preapproval is **required** for ALL Standard Application projects requesting more than \$10,000 of incentive money and for projects applying for the Real-time Steam Trap Monitoring incentive. Do not purchase (including generating purchase orders) new equipment until receiving an official preapproval letter.
- Multiple incentive applications less than \$10,000 at the same facility within 120 days of each other will not be accepted. Phased projects requesting less than \$10,000 may submit separate applications when completion dates are at least 120 days apart.
- Stockpiles of equipment are not allowed: all incentivized material must be installed and operational.
- Projects must be completed within 120 days.
- Final application paperwork is due within 30 days of project completion **or by December 31, 2018, whichever comes first.**
- Gas projects are capped at \$100,000.
- Survey and repair/replacement incentives are limited to once every 12 months, for individual steam traps within a system. The 12 month deadline refers to the steam trap *repair* date.
- Application paperwork can be submitted via email, fax, or hard copy. Do not submit “zip” files. You will receive a confirmation email within two business days of submitting a complete and correct application.
- Please save file to computer and use Adobe Acrobat to open the document. Most browsers (Chrome, Internet Explorer, Safari) do not auto-fill calculations**

Participation instructions:

- **Step One:** Determine if your project requires preapproval. If the total incentive request is over \$10,000 or the application includes real-time steam trap monitoring, preapproval is **required**.
- **Step Two, Track A:** If preapproval is required, submit the application for preapproval and do not purchase any material or generate purchase orders until a preapproval letter is issued.
- **Step Two, Track B:** If preapproval is not necessary, an application for “funds reserved” may be submitted, or the project may begin.
- **Step Three:** Within 30 days of project completion (all equipment installed and operational) or by December 31, 2018 – whichever comes first – submit a signed Incentive Payment Request form and all documentation requested on that form. Applications are reviewed and approved projects paid within 60 days of approval.
- **Step Four:** Program staff may conduct a post installation verification inspection upon receiving final application paperwork.

*Detailed, step-by-step instructions, FAQs, and other helpful information are available in the Application Guide (www.AmerenIllinoisSavings.com/portals/0/business/forms/application-guide.pdf).

Technologies that purport to save energy through reduction of voltage, demand, or power conditioning are not Qualifying EEMs. EEMs that displace electrical energy use or natural gas to another fuel (i.e., fuel switching proposals) are not Qualifying EEMs. Other than geothermal projects, renewable energy projects (solar, wind power, etc.) are also not eligible for incentives under this program. Unless explicitly pre-approved, EEMs must be new and covered by warranties. Natural Gas (gas) incentives do not include propane or butane measures.

After the Estimated Completion Date, Ameren Illinois may revoke the Pre-approval letter and associated incentive funds. Customer is responsible for ensuring application is accurate and equipment meets eligibility requirements in order to receive the Pre-approval incentive payment.
