- Estimated project completion date is by December 31, 2018

What you should know before beginning:

- Preapproval is **required** for ALL Standard Application projects requesting more than \$10,000 of incentive money. Do not purchase (including generating purchase orders) new equipment until receiving an official preapproval letter.
- Multiple incentive applications less than \$10,000 at the same facility within 120 days of each other will not be accepted. Phased projects requesting less than \$10,000 may submit separate applications when completion dates are at least 120 days apart.
- Stockpiles of equipment are not allowed: all incentivized material must be installed and operational.
- Projects must be completed within 120 days of equipment purchase date.
- Final application paperwork is due within 30 days of project completion **or by December 31, 2018, whichever comes first.**
- Electric projects are capped at \$500,000.
- VFD incentive applications are also capped at 80% of the project cost, which includes the costs of material and external labor (internal labor is not considered).
- Application paperwork can be submitted via email or hard copy. Emails that include “zip” files cannot be received. You will receive a confirmation email within two business days of submitting an application; please contact us if you do not receive a confirmation email.
- Please be aware that projects submitted on this application, may only receive incentives for eligible equipment if it is (1) self-installed by an employee of the Ameren Illinois customer listed on this application, or (2) installed by an Illinois Commerce Commission-approved Certified Installer. A complete list of Certified Installers can be found at <https://www.icc.illinois.gov/utility/default.aspx?type=28>.
- Please save file to computer and use Adobe Acrobat to open the document. Most browsers (Chrome, Internet Explorer, Safari) do not auto-fill calculations.**

Participation instructions:

- **Step One:** Determine if your project requires preapproval. If the total incentive request is over \$10,000, preapproval is required.
- **Step Two, Track A:** If preapproval is required, submit the application for preapproval and do not purchase any material or generate purchase orders until a preapproval letter is issued. You will be notified if a pre-inspection is required.
- **Step Two, Track B:** If preapproval is not necessary, an application for “funds reserved” may be submitted, or the project may begin.
- **Step Three:** Within 30 days of project completion (all equipment installed and operational) or by December 31, 2018 – whichever comes first – submit a completed Incentive Payment Request form and all supporting documentation requested (or an entire application if not previously submitted). Applications are reviewed and approved projects paid within 60 days of approval.
- **Step Four:** Program staff may conduct a post installation verification inspection upon receiving final application paperwork.

Standard VFD Application

Variable Frequency Drive (VFD) for Pumping and Air-handling Applications (Measure Code BPM1)

Eligibility Criteria for New Equipment

- Must be used in conjunction with pumping or air-handling applications.
- VFDs installed on HVAC fans, HVAC chilled water pumps, or HVAC hot water pumps should apply under measure BPC20 or BPC31 on the Standard HVAC/Water Heaters application.
- VFDs for air compressors, chillers, and non-centrifugal loads (e.g. conveyor or positive displacement pump) are not eligible for this incentive, but may be eligible for incentives through the Custom application (which require pre-approval).
- Minimum equipment operating hours 2,000/year.
- Must be installed on an AC motor (DC motors are not eligible).
- Individual motors may not exceed 500 hp (over 500hp may be eligible under the Custom Program).
- Redundant/backup units do not qualify.
- Replacement of existing VFDs does not qualify.
- System must be controlled by differential pressure, flow, temperature, or other control variable.
- Application must have significant load diversity. Applications meant for power conditioning and other non-varying loads are not eligible.
- VFDs must be functional (installed and ready to operate) by December 31, 2018.
- External labor may be included in the project cost (but not internal labor). Project cost can include upgrade to VFD-compatible motors (if the VFD upgrade causes the motor to be replaced with a new VFD-compatible motor).
- Incentives are based on the new equipment being installed, not the equipment removed.
- Installations of new equipment with VFDs which are required by IECC 2015 are not eligible for incentives.
- VFDs for Commercial Pool Pumps 3 HP or less should apply under the [Standard Specialty Equipment - Hospitality Application](#)

Words importing persons include corporation, and words importing only the singular include the plural and vice versa when the context requires.

- a) "Ameren Illinois" shall mean Ameren Illinois Company d/b/a Ameren Illinois.
- b) "Application" shall mean the Customer completed document used to apply for cash incentives, program Terms and Conditions, and any other appropriate application-specific documentation.

- f) "EEM" shall mean energy efficiency measures.
- g) "Eligible Customers" shall mean non-residential electric and/or gas Customers of Ameren Illinois. Each application has different eligibility requirements for Delivery Service rates (DS# for electric, GDS# for gas) to be eligible for that program. Refer to the specific program applications to determine if your business is eligible for that application. The Ameren Illinois incentive payments are awarded only to Eligible Customers for equipment that is owned by them and installed in the Ameren Illinois service area at the location that corresponds with the Ameren Illinois account number listed in the Application. All Eligible Customers are ultimately responsible for compliance with these Terms and Conditions.
- h) "Facility" shall mean a single premise that, in general, consists of a contiguous tract of land separated by nothing more than a street, alley, or railroad right-of-way, where all buildings and/or energy-consuming devices are owned by a single Customer.
- i) "New Construction" shall include construction of new buildings, change-of-use of existing buildings or land, additions to existing buildings, or when two or more building systems are renovated, such as shell and heating, heating and lighting, etc.

Technologies that purport to save energy through reduction of voltage, demand, or power conditioning are not Qualifying EEMs. EEMs that displace electrical energy use or natural gas to another fuel (i.e., fuel switching proposals) are not Qualifying EEMs. Other than geothermal projects, renewable energy projects (solar, wind power, etc.) are also not eligible for incentives under this program. Unless explicitly pre-approved, EEMs must be new and covered by warranties. Natural Gas (gas) incentives do not include propane or butane measures.
- l) "Standard Initiative" shall mean those projects associated with Standard gas or electric EEMs. Standard Initiative includes the following: *Lighting (not New Construction Lighting), VFD, HVAC, Specialty Equipment, Steam Trap and/or Leak Survey and Repair*. See the Ameren Illinois Energy Efficiency website for applications (AmerenIllinoisSavings.com).

2. OWNERSHIP OF CAPACITY AND/OR ENVIRONMENTAL CREDITS:

- a) EEMs purchased and installed in part through incentives provided by this program are the property of the Customer, subject to any limitations contained within these Terms and Conditions.
- b) Notwithstanding the above, unless otherwise requested in writing by the Customer prior to installation of the EEMs, Ameren Illinois holds sole rights to any system capacity credits and environmental credits that may be associated with EEMs for which incentives from Ameren Illinois were received, and Ameren Illinois can dispose of these credits in any manner authorized by law or regulation.
- c) In no event shall activity associated with any energy or environmental credits noted in Section 2(b) result in interference with the Customer's sole discretion to operate EEMs as approved in his/her incentive award.

3. PRE-APPROVAL

For all Applications, Ameren Illinois is not obligated to award any incentive payment unless Pre-approval is granted. Further, Ameren Illinois will not pay incentives for any EEMs ordered or any purchase order generated prior to the date of the Pre-approval letter, UNLESS, the requested incentive is less than \$10,000 on any Standard Initiative Application (see 1.j above). Pre-approval reserves incentive funds for a period up to the Estimated Completion Date provided in the Pre-approval letter. After the Estimated Completion Date, Ameren Illinois may revoke the Pre-approval letter and associated incentive funds. Customer is responsible for ensuring application is accurate and equipment meets eligibility requirements in order to receive the Pre-approval incentive payment.

4. POST-INSTALLATION VERIFICATION: Ameren Illinois is not obligated to make any incentive payment until it has performed a satisfactory post-installation verification. This provision may be waived at the sole discretion of Ameren Illinois.

5. INCENTIVE PAYMENT AMOUNTS:

a) Incentive caps (per program year for a facility) are defined as follows:

- i) Standard, Custom, and Retro-Commissioning applications: Electric incentives are capped at \$500,000 per project. Gas incentives are capped at \$100,000 per project.

- e) Incentives for Standard or New Construction applications will be capped at the project cost, which includes material cost and external labor cost (Internal labor is not considered in the project cost). Steam Trap Surveys are eligible for incentives when construction labor is used per the guidelines of the Steam Trap application.

6. MONITORING AND EVALUATION FOLLOW-UP VISITS: Customer grants Ameren Illinois and any of its agents, the right to make follow-up visits, inspections or surveys of the Customer's facility during the 36 months following the completion date of the project at a time convenient to the Customer. If Ameren Illinois discovers that the EEMs were not actually and properly installed or were subsequently disconnected within 36 months after installation, Ameren Illinois shall be entitled to money damages equal to the total amount of incentive payments made plus interest.
