BPI's Building Science Principles Certificate Course & Exam

Building Science Training Series

Learn how a home works as a system to provide comfort, energy efficiency, durability, and indoor air quality. Topics include insulation, air sealing, mechanical systems, moisture management, and energy conservation strategies.

This series of courses is made possible through the Illinois Home Performance program. This program is funded by ComEd, Nicor Gas, Peoples Gas and North Shore Gas in compliance with Illinois law.

Taught by Todd Abercrombie of EverGreen Home Energy Consultants

- 14 hours of classroom training
- 100-question online exam code (to be taken later at any time)
