

SAVE

when you purchase an
ENERGY STAR[®]
Heat Pump
Water Heater!

WITH THE AMEREN ILLINOIS ENERGY EFFICIENCY PROGRAM

Save Energy and Money with a Heat Pump Water Heater!

To improve efficiency, ENERGY STAR certified electric storage water heaters use a highly efficient heat pump to transfer heat from the surrounding air to the water. This process allows **Heat Pump Water Heaters** to use less than half the energy of a standard electric storage water heater, saving you money!

Receive Incentives

The Ameren Illinois Energy Efficiency Program is offering cash incentives for **Heat Pump Water Heaters** for both business and residential customers! For **residential customers**, you may also be eligible to receive a \$300 federal income tax credit through **Dec. 31, 2021**.

Visit our website to learn more about **Heat Pump Water Heaters**, and find a list of enrolled distributors who can offer you the incentive.
