Permanent Lamp/Fixture Removal

Eligibility Criteria:

Permanent Lamp or Fixture Removal

- These measures are only to be used if no new fixtures or lamps are installed – permanent removal only.
- "Before" photos of modified fixtures may be requested at any time - it is up to the Ameren Illinois customer to make sure these are available (photos cannot be taken more than 90 days prior to the date you submit your application). Without photo documentation, Ameren Illinois reserves the right to deny the portion of the incentive resulting from fixture reductions. Including before and after photos with your application may help to speed project approval.
- These incentives cannot be combined with incentive requests for lighting upgrades that are calculated on a "watts reduced" basis.
- Current lamps must be operational and operating (at a minimum) a standard work day.
- *If you are removing multiple configurations of fixtures (e.g. different number of lamps, or different wattages), please attach a spreadsheet that specifies the quantity of fixtures, the wattage per fixture, and the total wattage reduced for each configuration.*
- Lamps must be permanently removed from the fixture and the fixture must be modified so that lamps cannot be reinstalled at a later time - e.g. removing tombstones/sockets.
