## **Social Post Option 1:**

With so many ways to save money, now is the best time to replace your aging water heater with a reliable and efficient model. Thanks to the Ameren Illinois Energy Efficiency Program, we are offering a **\$1,150 discount** to replace your old, inefficient water heater with a highly efficient ENERGY STAR® certified heat pump water heater. In addition to saving money on energy bills every month, qualifying homeowners can save even more with a federal tax credit that offers up to 30% of the purchase and installation cost of a heat pump water heater, up to \$2,000. Contact us to schedule your installation and start saving: [Insert contact info].

## **Social Post Option 2:**

Give your family reliable hot water all year long — and save hundreds in the process. Now is the time to upgrade your aging water heater with a reliable and efficient heat pump water heater, you can get \$1,150 in instant savings thanks to the Ameren Illinois Energy Efficiency Program. Plus, you can save hundreds more on your electric bill year after year by using 70% less energy to heat your water. Contact us to schedule your installation and start saving: [Insert contact email].
