- Started ACES in 2023.
- Has completed 130+ jobs using Ameren Illinois incentives.
- Lives in Mapleton, IL with his wife, Stephanie, and their five kids.

Energy Efficiency
PROGRAM

Small Business Direct Install (SBDI)

- Using Ameren-approved Program Ally contractors to upgrade your lighting to LED and add lighting controls.
- How It Works:
 - › PA (Participating Ally) does all the paperwork, purchasing and install.
 - › PA receives the incentive money.
 - › PA deducts incentive money from the cost of the project.
 - › Ameren customer receives new, energy-efficient lighting at a discounted price.
- Highest incentives of any Ameren Illinois program.
- DS2 and DS3A business customers are eligible (450 kWh annual usage or less).

Energy Efficiency
PROGRAM

Lighting Upgrades at 12 Facilities

- Total cost to upgrade lights and add controls
- Total incentive received from Ameren Illinois
- Total copay cost for SC2

\$473,085

\$437,700

\$35,385

Total kWh Savings:

1,754,000 kWh

Energy Efficiency
PROGRAM

Take Control!

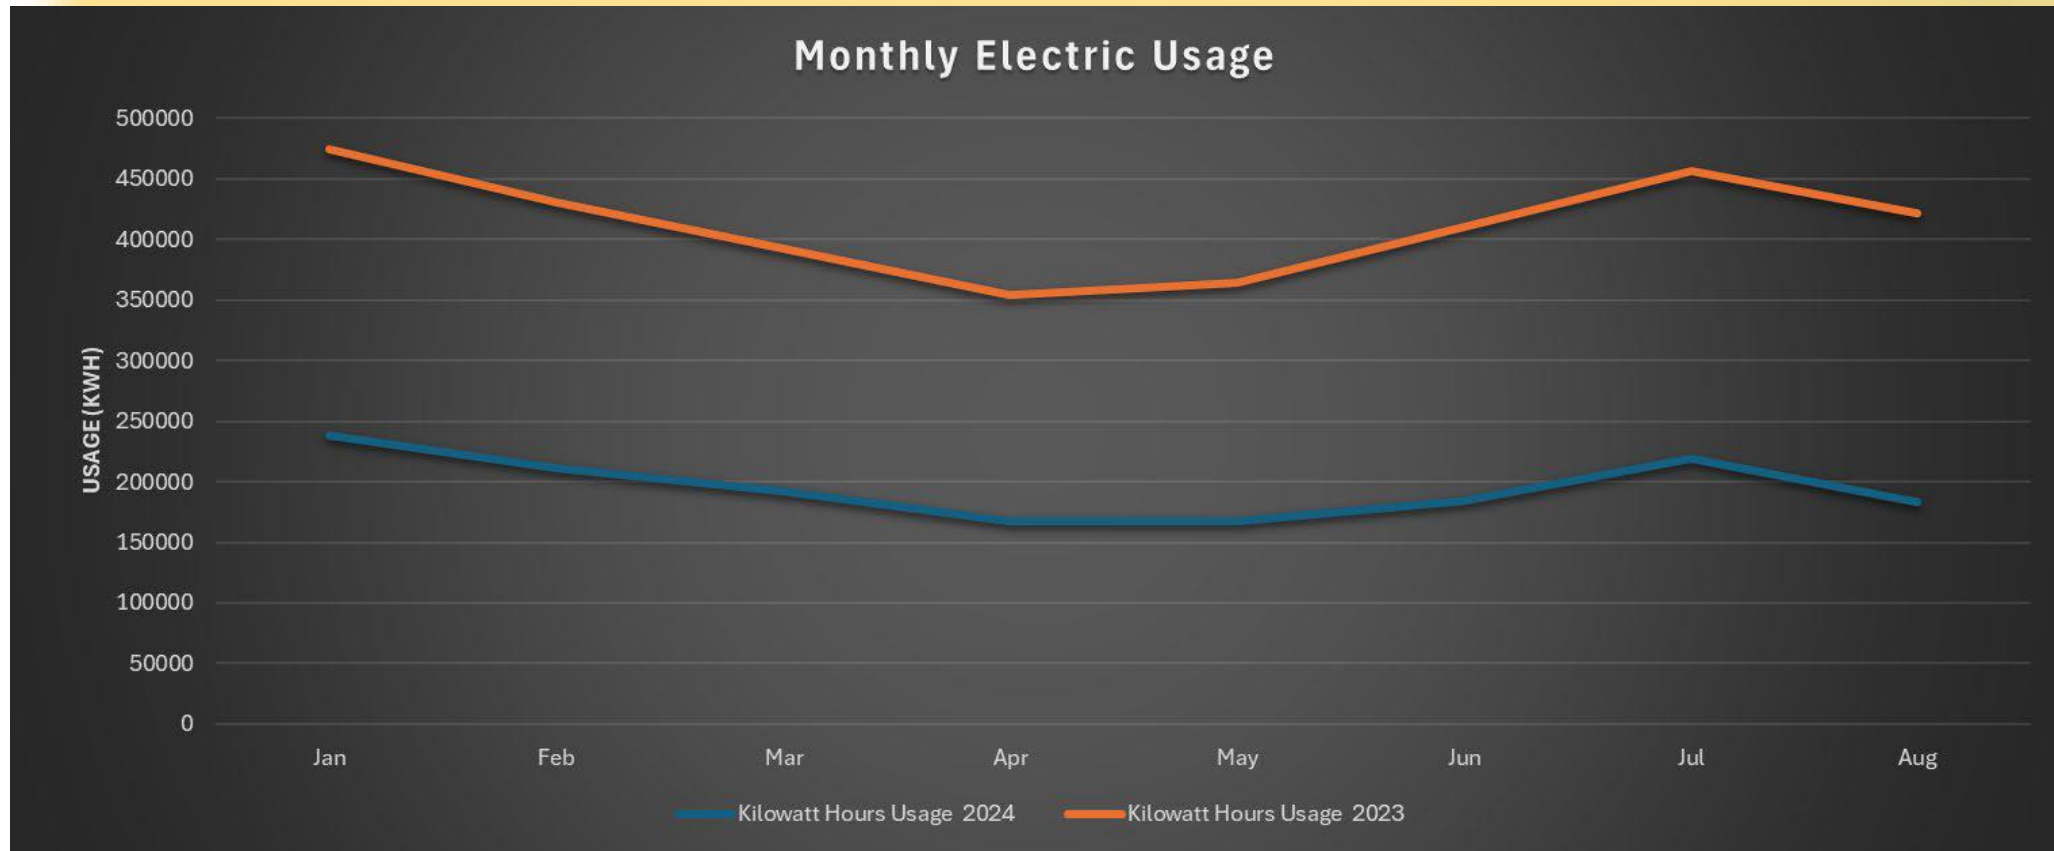

- **Luminaire Level Lighting Controls (LLLCs):** a fixture-based lighting control solution that offers the capability to control lighting based on occupancy, motion, daylight harvesting, zones, high-end trim, low-end trim, timers and dimmers.
- LLLC is just as it sounds - incremental lighting control at the luminaire level.
- LLLC allows Ameren Illinois customers to have complete control and reduce energy usage.
