

NEW CONSTRUCTION INCENTIVES

Energy Efficiency PROGRAM

Ameren Illinois non-residential customers can qualify for financial incentives for energy-saving equipment upgrades in New Construction projects.

PRE-APPROVAL IS REQUIRED FOR PROJECTS REQUESTING INCENTIVES OVER \$15,000.

Qualifying New Construction Projects

- New buildings
- Change of use of existing building or land
- Building additions or gut remodel (two or more building systems are renovated – e.g., heating and lighting)

Available Financial Incentives

Project Requirements

- Installed equipment must exceed baseline code requirements for energy efficiency.
- Electrical contractors must be Illinois Commerce Commission (ICC) certified.
- Lighting equipment must be at least 15% more efficient than code and [Design Lights Consortium \(DLC\) qualified](#).

How to Get Started

Visit AmerenIllinoisSavings.com/NewConstruction:

Click on the “Excel Application” button. Please note that this application is an Excel file and applications must be submitted as an Excel file (not saved as a PDF).

Lighting and Lighting Controls projects can apply using the portal at www.amplifyincentives.com/amil.

SUBMIT EXCEL APPLICATION VIA EMAIL OR POSTAL MAIL

OR

SUBMIT APPLICATION VIA ONLINE PORTAL (AMPLify Online)

What is the Process?

1

Contact your Energy Advisor to determine eligibility and coordinate with Technical Review Team.

2

Submit your project application.

3

For incentive requests over \$15,000, wait for your Ameren Illinois letter of approval before proceeding. Otherwise, begin your project.

4

Submit final paperwork within 30 days of project completion.

5

A post-installation inspection may be required.

6

Receive your incentive check.

How Can I Get Help?
